ABOUT KMKCP AND MADHUSUDAN NYALCHAND SHAH TECHNICAL DEVELOPMENT CENTRE

Principal K. M. Kundnani College of Pharmacy (KMKCP) is one of the premier pharmacy institutions in India, situated in Mumbai, Maharashtra. It was the first technical institution of the Hyderabad (Sind) National Collegiate Board established in 1971. The college is Government aided, permanently affiliated to the University of Mumbai, approved by the Pharmacy Council of India (PCI) and accredited by NBA. This foundational academic framework ensures graduates are well-equipped for diverse career opportunities in the pharmaceutical industry and allied areas of healthcare.

The newly inaugurated Pilot Plant supported by Mr. Mehul Shah (Founder and Director of Encube Ethicals), KMKCP class of 1986 and Shree Multan Seva Samiti, is a cutting-edge training facility equipped with industrial-scale pharmaceutical manufacturing equipment. Designed to bridge the gap between theory and practice, the plant provides students with real-time exposure to drug formulation, processing, and quality control.

ABOUT SHRI B. V. PATEL EDUCATION TRUST

Shri B.V. Patel Education Trust (BVPET), established in 1974 in memory of Gujarat's First Drug Controller, Shri Bhupendrabhai V. Patel, promotes education in pharmacy and allied sciences. It aims to create skilled professionals for the pharmaceutical industry through initiatives like Hands on Training Program, Workshops, Faculty Development Program and Industry-Oriented initiatives.

The Trust conducts the annual Shri B.V. Patel Essay Competition and hosts a Memorial Lecture at the Indian Pharmaceutical Congress, where winners are awarded. Plans are underway to launch Certificate Courses to enhance industry readiness. Website: www.bvpedustrust.com

WORKSHOP DETAILS

- Introduction to Herbal drug Extraction Methods and Scale up.
- Standardization of Herbal extract.
- Unit operations in Herbal drug Processing (tablet compression, Coating, Packaging and Liquid Filling)
- Quality Control of Herbal Drug tablets and liquid formulations.

WORKSHOP OBJECTIVES

- To equip participants with practical and theoretical expertise in the extraction of herbal constituents
- The workshop will guide learners through the formulation of herbal dosage forms—including liquid fills, tablets, and coated products—while emphasizing packaging standards and stability protocols.
- A key focus will be on scaling processes from laboratory research to pilot-scale industrial applications, ensuring readiness for commercial production.

WHO CAN REGISTER

- Students: Especially those pursuing pharmacy, biotechnology, botany, or related life sciences.
- Researchers: Working in herbal medicine, pharmacognosy, phytochemistry, or drug development.
- Faculty Members: From academic institutions involved in pharmaceutical or herbal sciences.

REGISTRATION DETAILS
