About DCOP

Dnyandeep College of Pharmacy, situated in the scenic Boraj-Morvande region of Khed, is a premier institution dedicated to excellence in pharmaceutical education. Managed by the Dnyandeep Shikshan Prasarak Mandal, the college offers comprehensive programs including the Bachelor of Pharmacy (B. Pharmacy). The campus is equipped with state-of-the-art laboratories, a well-stocked library, and modern infrastructure designed to foster a rigorous academic environment.

The institution emphasizes a blend of theoretical knowledge and practical expertise, frequently organizing industrial visits and guest lectures by domain experts. With a focus on research and innovation, it aims to mold students into globally competent healthcare professionals. The college also maintains a strong commitment to community health through various outreach programs and health camps. Its dedicated placement cell works tirelessly to bridge the gap between academic learning and industry requirements, ensuring bright career prospects for its graduates.

Workshop Overview

The pharmaceutical landscape is undergoing a massive digital transformation. Artificial Intelligence (AI) is no longer a futuristic concept; it is actively reshaping drug discovery, clinical trials, data analytics, and personalized medicine.

To ensure our academic ecosystem keeps pace with these rapid industry advancements, this workshop aims to serve as a vital bridge. It will focus on integrating cutting-edge AI tools into the pharmacy curriculum (pedagogy) and empowering the workforce to leverage machine learning algorithms in active research (discovery).

APTI, Maharashtra State Branch

About APTI

The Association of Pharmaceutical Teachers of India (APTI) Maharashtra State Branch is a vital regional arm of the national APTI organization, which was established in 1966 by pioneers like Prof. M. L. Schroff. As one of the most active state branches, it serves as a unified platform for pharmacy educators across Maharashtra to enhance the standards of pharmaceutical education and research.

Core Objectives & Vision

The branch operates with a mission to bridge the gap between academic curricula and the evolving needs of the pharmaceutical industry. Its primary goals include:

Quality Education: Developing advanced teaching methodologies and modern technological tools (such as computer-aided drug design) to improve student learning outcomes.

About BVPET
